About us

Sophos Hotels SA is a Swiss company, founded in 2005, and active in the area of expertise and hotel management, mainly in Europe, in Turkey, in Algeria and in the Middle East.

With than 30 years of involvement in Hotel Management and Hotel Development Worldwide, Sophos Hotels help investors, and partners navigate the complex and ever-changing hotel industry.

The Sophos Hotels expert Team has international experience and extensive knowledge in the field of operations, training, consulting, strategic development, real estate, asset management as well as financial projections and analysis.

Our Services

Asset Management

On behalf of the property owner, we oversee the asset to enhance its long-term value, focusing on right strategic decisions and ensuring optimal operational performance.

Feasibility Studies

We put at your disposal our experience to enable you to make the right decisions at the right time and reach your goals. This first step will determine the future of your project.

Hotel Project Development

We provide comprehensive support from the inception of hotel project to its opening, including technical support and pre-opening services to ensure the hotel is ready to welcome its first guests.

Hotel Management

Whether independent or branded, we take care of the operational management of your establishment while allowing you to preside over its destiny.
